

# **happy families**

## **happy families**

The object of the game is to collect as many families (groups of 4 cards belong together) as possible.

**How to play:** Deal out all the cards. The dealer starts by asking another player for a card needed to complete a family. If the other player has the card they must give it to you. You may continue asking for cards until you ask for a card the other player doesn't have. When a mistake is made the player who was asked for their card takes their turn to request cards. When a player gathers a family they must put the 4 cards face up on the table in front of them.

The player who collects the most sets is the winner.
